RE: Snapshots of Service

Fellow Sons,

I hope you were busy this past May with the National Veterans Assistance Day and Memorial Day activities. I also hope that you were able to take some photographs for your Squadron Scrapbook showing the great work you do for our Veterans and in your Community. The Public and Media Communications Commission is also asking you to share those pictures with us and the Nation with our Snapshots of Service Contest. We have made it very simple for you to enter by going to www.snapshotsofservice.org. The rules and a fillable application are available there. This Commission knows that YOUR Squadron is doing the work and has the proof; just send it in. Your photo just might also show some other Squadron a way to duplicate your actions in their own Post home or Community.

Most everyone has a cell phone these days that is equipped with a camera; so you are ready at a moment's notice to take a snapshot. Chances are your phone is also able to connect to the Internet; so you can go to www.snapshotsofservice.org , fill out the application, send your photo, and you are in the contest. As our year comes to an end, also please remember to fill-out and send in your Consolidated Report Form. We seem to want to boast about our sports teams--isn't it time we start to brag about what our Squadron does? Send in your photos, fill in your forms, assist our Veterans, and let our Communities know what we do. Send your questions to djbradtmueller@att.net.

Respectfully yours in Service,
Public and Media Communications Commission
