

## Veterans Employment and Education Commission

The Sons of The American Legion Veterans Employment and Education Commission (VE&E) have set two major goals for the 2019/2020 year. To increase the employment rate and decrease the homelessness rate of veterans. We will be focusing on disseminating information regarding job/career/hiring fairs by adding a link to this information on our National website, Facebook page and across other social media platforms through our webmaster, Gene Theroux and by working with our Public Relations and Media Commission. The commission is also discussing ways in which to best get the homeless veterans' brochure for first responders out to as many agencies as possible.

While it is our responsibility to pass along as much information as possible, VE&E will be depending on Squadrons and volunteer "boots on the ground" to assist at the local level. We will send out monthly reminders as to where and when the hiring fairs are taking place, along with other pertinent information to accomplish our goals.

Veterans Employment and Education
